

Typhoon is the way to automatically quote Internet leads in real time and email a quote to the prospect within minutes of the initial request.

1. The lead is sent by the lead provider to:
 - a. Axiom which adds the preliminary data to Alliance
 - b. The agent via email
 - c. Typhoon
2. Typhoon
 - a. Quotes from the data provided and the presets supplied.
 - b. Emails the prospect
 - c. Logs into eAgent and posts the lead info

In order to add the lead to eAgent, Typhoon must have current eAgent Username (your email address) and the eAgent Password. If the leads fail to reach eAgent, we send an automatic email reminder with a link to typhoonmanager.com/agents/eagent-changepassword.asp.

You can change your password by going to the typhoonmgr.com and selecting [My Account](#).

Did You Know...

... QuoteBurst is a result of collaboration of Allstate agent Bruce Thompson and IT guru Stephen Bentley?

...The products and services provided by QuoteBurst are offered exclusively to Allstate agents?

...QuoteBurst offers **free** technical support for all our products through www.quoteburst.com or 1-800-527-9395?

...Every time you start a QuoteBurst program you will have the latest version of the software automatically downloaded **free**?

...QuoteBurst is your employee to handle all your Internet leads (Typhoon), bulk mailing leads (Dyanmo) and requoting (FlashBack) needs?

...Our goal is to make quoting as easy as possible for you so you can concentrate on others ways to make your business more profitable?

Change Your eAgent Password for Typhoon Integration

Please enter your Allstate Agent ID (ex: a0123456), your eAgent Username, your old eAgent Password (that we have in our system), and your new eAgent Password; and then click on the Send button to continue. Thank you.
